

TONY FAN

 [/website:fanjiyu0825.github.io](https://github.com/fanjiyu0825)  likemasster@gmail.com

now focus on **Distribution system, recommendation system**

EXPERIENCE

蟲洞科技:Back-end and Data-Engineer

March 2021- MARCH 2022

ML/JAVA/JavaScript/No SQL(Mango)/T-SQL

- Smart Manufacturing:The smart electric system(**reduce the electric waste 5%**) ,carbon system and production scheduling algorithm design
- Data-Center:collect data help vendor know how the Manufacture going on,also visualize the data on front-end

Study-Cat:Data Science

April 2020 - JULY 2020

Python/NLP/Time-Series/AWS/JavaScript(Angular)/No SQL(dynamo db)

- LMS(Learning Management System) Building collect student data of
- ML Explainable AI: Help the teacher know the student concentration(find out the **avg concentration is 5 min**) and also help us to adj the lesson design

World Trade Center in Taichung(Trainer)

Oct 2019 - JAN 2020

js/Python/DL/ML

- Front-end skill(JS HTML basic knowledge)
- FLASK:Build the web let the data can visualize the on front-end
- Big Data Skill(ML-project:iris , Stock Predicate)

Hung-Jou Technology Co:Storage Manage

Aug 2018 - Sep 2019

Google Ads/Google analytic/SQL/Excel

- RFM - Qualitative Quantitative research , find out potential product
- Use the **history of our product sell+keyword+crewing-EBAY** selling history , Opt the reward of selling
- ,

EDUCATION

- Chung Hsing University:Master Degree, Computer Science 2022-2024
- Chung Hsing University:Bachelor Degree, MARKETING 2013-2018
- Chung Qing University**Exchange Student**2017

CLASS

- CS: Linear Algebra,Data Structure,Computer Organization,Deep Learning
- MARKETING: DATA-SCIENCE in MARKETING STATISTIC

TECHNICAL SKILLS

Programming:	Python,JAVA,ANGJS
Data Science:	ML,Data-Mining,NLP

REWARD

[coding](#)

- 2020 I'm the Best Coder! Challenge Final
- 2021 Legaltech-Hackathon(法律黑客松) Final
